Solutions for Science and Industry

## Automated Modular Microtube Storage and Handling

### arktic®

- Secure  $-80^{\circ}\text{C}$  storage for compact BIOBANKING
- Up to 95,000 tubes
- Retrieve 96 samples in under 5 mins
- Wheels through a lab door - depth of a standard lab bench

### comPOUND®

- For all your storage requirements from ambient to  $-20^{\circ}\text{C}$
- Remote sample delivery
- Up to 200,000 tubes
- Cherry-pick one tube from 100,000 in 5 seconds!

### Why Choose comPOUND & arktic?

- Secure storage and sample tracking
- Compact footprint
- Stores individual tubes, not racks
- Only defrost the sample that you want
- Extremely robust technology
- No moving parts within the cold zone
- Simple file-based interface for easy integration with any LIMS or database

### Global TTP Labtech Representative Clients

- AbCam
- Amgen
- AstraZeneca
- Compounds Australia, Griffith University
- Danone
- Dart Neurosciences
- DSM
- Korea National Institute of Health
- Merck
- Shanghai Institute of Biological Sciences
- The University of Nottingham
